

## Service charges (payment at time of service):

99205 – \$260

90 minute comprehensive initial evaluation appointment to include screening interview, diagnosis, and start of initial treatment plan (standard initial appointment)

90801 – \$180

60 minute re-evaluation appointment to include interview, diagnosis, and modification of treatment plan (typically after a lapse of a year in treatment, or an initial evaluation of another member of the an established family)

90805 – \$100

25 minute check-back appointment to assess progress, adjust medication if any, answer questions, and update the treatment plan as needed (standard short check in)

90807 – \$155

45 minute re-evaluation appointment to include update interview, diagnosis, and modification of ongoing treatment plan (standard more comprehensive check in)

90847 – \$175

55 minute family session to focus on family dynamics in the context of established diagnoses; includes modification of ongoing treatment plan and adjustment of medications if any as needed (standard family session)

90862 – \$75

15 minute short check-in appointment to re-prescribe established medications, answer questions, and update the treatment plan as needed (seldom used except with very stable treatment plan)

On occasion by mutual agreement I will see patients for extended appointments to accommodate long travel times or intensive need for care of complex issues. These are charged according to the time frames above.

Late cancellation fees (less than 24 hour notice) may be charged if the appointment times cannot be filled.

I will negotiate fees on a case by case basis for patients whose incomes meet Hill-Burton guidelines up to a 50% discount. Proof of income can include pay stubs, recent IRS tax forms. To view Hill-Burton guidelines, go to <http://aspe.hhs.gov/poverty/11computations.shtml>

I do not have staff to bill insurance, so you will be expected to bill your own insurance. If your insurance has reasonable discount rates, I will honor them once they are documented. I have honored Medicaid coupons in the past on a selective basis.
